

To report the illegal removal of a healthy tree that is over 30 cm in diameter:

Any healthy tree over 30 cm needs a “Request to Injure” posted so neighbours can speak up about planned removal of the healthy tree in their neighbourhood. For trees that are on Ashdale Avenue or Rhodes Avenue, residents on Craven have to take walks around the block so they can look out for the Request to Injure. That will be your chance to speak up against a healthy tree being removed or injured.

You can also email the following people:

Tamara Thanaraja – Assistant to Paula Fletcher who looks after tree issues (she has been extremely responsive taamara.thanaraja@toronto.ca It is best to call her right away: 416-392-4030
